The church still wore its Christmas decorations, which were supplemented by palms and flowering plants kindly furnished by Mr. Warren W. Rawson. The music under the direction of Mr. William E. Wood, who played the organ, was finely rendered and gave great satisfaction. The choir was composed as follows: Sopranos, Mrs. Annie Wing knowing that the world will be here Smith, Mrs. Herbert W. Reed, Mrs. T. Ralph Parris, Mrs. Horatio F. Martin, Mrs. Harry Fay Fister; altos, Mrs. Moses J. Colman, Mrs. Henry Hornblower, Mrs. Charles E. Fitz. Mrs. Kate B. Elwell, Mrs. Harry A. Leeds; tenors, Charles E. Fitz, Warren W. Rawson, Steph. B. Wood, Harry A. Leeds; bassos, E. Payson Groesbeck, T. Ralph Parris, George G. Allen. The services were opened by Gounod's

anthem, "Send out thy light," which was splendidly sung, and assured the audience that the musical part of the program would be all that could be desired. A handsome souvenir program had been provided, very few copies of which were found in the pews when the people retired. It gave the following information concerning the officiating clergymen, all of whom had part in the service under the leadership of Rev. Mr. Gill: First Congregational (Unitarian), parish 1733, church 1739, Rev. Frederic Gill, 1892; Arlington Baptist church, 1781, Rev. Charles H. Watson, D. Lorimer, 1900; Park avenue Congregational in a forgotten past. It is another rule church, 1899, Rev. John G. Taylor,

Rey. Mr. Taylor conducted the responsive service, in which the whole audience participated. Rev. Mr. Fister read the scripture lesson, Rev. Mr. Lorimer announced the hymns and Rev-Mr. Yeames offered prayer. The addresses were by Rev. Mr. Bushnell and Dr. Watson. Two magnificent congregational hymns were sung, "O God, our From time immemorial it has been man's predominating ambition to prolong Life. But among the many brilliant minds who have devoted their lives to the fascinating subject it was left to the immortal Darwin to give to the world, in his great theory of Life, the fundamental principle upon which to build all further research in this direction. Following closely in his footsteps came Prof. Dr. Ludwig Buechner, a German scientist of international renown, with his remarkable work entitled "Das Buch des Langen Lebens" (the book on Longevity). But alas, like Darwin, he too died ere he could reap the fruit of his wonderful doctrine. Others, however, equally great took up the interrupted thread, with the result that two famous German scientists, after years of experiments and research, have at last discovered the secret of Longevity, in the shape of a remarkable Vegetable Compound, which, if properly used, will positively prolong Life. This new remedy, appropriately named "Longavita" (meaning Long Life) has been subjected to the most rigid tests at all the leading clinics and hospitals throughout Europe with marvelous results. Appreciating the importance of this discovery, we have acquired, at enormous cost, the exclusive proprietary right to this truly wonderful preparation, which has proved a blessing to mankind. "Longavita" is the true Tablet of Life, a rejuvenator par excellence, embodying the veritable secret of Longevity, in a practical, feasible form. It is the fountain of perpetual youth, which it prolongs far beyond its present limits, while retaining health in a perfectly normal state. "Longavita" brightens the eye, stimulates mental activity, gives elasticity to the step, makes the face full, absorbs wrinkjes, cleanses the system, purifies the skin, and is the only true Ponce de Leon remedy for old and young of both sexes. Endorsed by Europe's leading physicians.

heavenly day." The immense audience, drawn together by the sentiment of the hour, furnished a sight which Dr. Watson said in a residence of nearly 20 years he had never seen equalled. It proved that we are so made that we cannot get along without God, and it gives us courage to believe that he cannot get along without

Mr. Bushnell, after a brief look back ward over the past century, addressed himself to the question: What can we himself to the question: What can we expect of God in the twentieth century, abundant life. And man is as great as and what has he a right to expect of us? the range of his thought, and can go at He said that God can be relied upon to do what is right. Assume the right attitude towards him and all will be well. Not everything will be easy or pleasant, but things will be as nearly right as possible under existing circumstances. Mr. R. H. White of Arlington was a prisoner at Andersonville 35 years ago. One man, General Grant, could have set him free by an exchange of prisoners, but today Mr. White justified General is the greatest thing in the world; and his religion it the greatest historical in Andersonville were fighting battles

stand still in a gale of wind because the machinery had given out. He had inspected the steamer and wondered at its marvellous engine. Now he marvelled more at the maker, or at the man who could do for them what the engines new one in, and then go home and sleep when we wake because God is in it and behind it. And God is good. This is the best thing we can say about him, and God pity the man who has not found it out. For God, so far as we are concerned, is very much what we think him to be. "Each new virtue in man is an added window through which some new and glorious attribute in God rushes into sight." It is important that we should think right thoughts concerning God, who is constantly striving to reproduce himself in us. This being so, God has a right to expect of us, first, loyalty to him. Not one of us but should make it the business of his life so do God's will. Second, to begin right away, and, third, continue steadfast and Carnest all our days.

In bare outline, Dr. Watson said that in a deep sense there was no such thing as forgetfulness of the past. What we ceased to be conscious of remained as our possession. It had gotten into habit, character, nature. Sorrow, love, experience, disappointment, tug and tussle,-all were discipline, and we were living in the chastening strength of it, though much of it had passed out of memory. Paul said: "Forgetting the forth into the things that are before, I press forward to the mark," but even the "reaching forth" is made possible by the unconscious strength developed that works two ways. If grooves of evil habit are worn deep, we lose the power to get out of them, save by the grace of God and our own consent and selfinfluence. But, in our relation to God, pre-occupation is the great and costly blunder. We are filled too full of other things to give room for him. This is the easy human tendency, made as we are. But God is still our father, while we are pre-occupied with our perishable delights, and we are yet his children. But if we allow the more tangible things here at hand to possess us, they come to be the only things in which we really believe. So men come to listen to their moral and spiritual teachers as if they were merely respecting an outworn sentiment or fancy, the substance of which they deeply doubted. But in the commercial sphere they believe hard in the palpable material values that in the comfort and luxury they purchase give man the conscious thrill of possession. Such complete pre occupation eclipses faith in God and immortality. They become nothing but pleasant sentiment that slow up the pelting pace to a doglike death in which the sensualist comes deeply to believe. But dogs do not dream of immortality, nor put it aside least as far into the future as he is able to anticipate. But the shining, enduring qualities are not commercial but moral. The real values are not the "properties" accompanying the play of life. True wealth is weal of soul, the indestructible glory of a life having a sense of God and reflecting him. We are really celebrating tonight the com-

ing of him who made that glory possible. It is the twentieth century of our Lord Jesus Christ that we are greeting. John Fiske has well said, "The Messiah

The year 1901 has come to us with all its untold possibilities. The old year is now of the historic past, as is the initial year of the christian era. We now can have only to do with the new year that is full upon us. 1901 is a blank book, each page of which we are to fill in our own individual way. We all start out with high resolves to do the best we can, but to accomplish all this there are certain conditions that we must accept as fundamental to that far, out-reaching success which touches humanity at every point

In the first place we must recognize and appreciate the underlying fact that every individual life is related to some other life-indeed related to all human life. We cannot live with and in ourselves alone, however much we may attempt to so do. The unit of humanity takes in the entire human race, and there is no reckoning in all the wide world which can in any way prove itself true that does not base itself upon this fact. We are all our brother's keeper. And yet how we set ourselves up as entities! Under genial skies, and with no disturbing element in all the air about, we come to think that the waters and the winds will obey us even in their angriest moods. But let the storm come on, then how quickly we cry out "Lord, save us, or we perish." We all acknowldistress, but the lesson we need to learn when the waters are the smoothest and of the heavens. Our related life to each be, "how have I prospered during the year that is past and gone?" but "how has my neighbor prospered during these part failed to reach that success which

It is to our regret that we have ever spoken an un just word of a professional brother. We are more determined than ever that from now on we will attempt in no unfair way to get ahead of any live man or woman whose business it is to write editorials for the reading public. A fair, clean journalism can mean nothing less than a proper recognition of the rights of all who wield the journalistic pen. So we start out in this year of our Lord, 1901, and at the beginning of this new century, with the golden text upon our lips and upon our pen, "write of others of your own faith aud work as you would be written to or of. We need every one of us to "rise for prayers" and make our way to the "anxious seat." Let us own up through a broad confession, keeping nothing back, that we have fallen far short of our duty, in so far as that duty has related to our fellow. We have spoken a little, mean, hateful word when we should have declared ourselves in a generous way. We have withheld help when we should have hastened to extend the strong right hand. We have been too often a hindrance when we should have proven ourselves a help to our neighbor on his way. The most of us will only point eastward as we right-about-face.

The year 1901 is with us to stay for the full twelve months, and it is for us to say that we will dedicate it to all high endeavor in making the world better by giving our individual lives to and for those whose cry is for help.

THE TWENTIETH CENTURY.

We stand with uncovered head in the presence of the twentieth century. The cordial and fitting welcome given it the world over proclaims the glad prophecy that there are new worlds to be disnation upon heights from which the hensive view of men and things. The old saying, that "the more one learns in order that he may know that other gets upon its knees, and no harm will be ment.

would take in the whole view. Now this is just what the world has been doing all along the past hundred years. It has been climbing, so that from its present high vantage grounds it is in condition to make greater strides in every department of discovery and invention than heretofore, for now it starts from the known, while before it largely began its work from the unknown. Now it is an accepted and proved fact that sound in intelligible form can be conveyed by atmospheric currents, so that it is in the line of all reason that a visible impression of the individual may be made however great the distance intervening. We confidently expect that before the present century has far made its way that the Boston and San Francisco friend, conversing by telephone with one another from their respective homes, will as plainly see each other as though in each other's immediate presence.

And then this twentieth century will unquestionably bring about a wonderful change for the better in methods of transportation. That man is not to be accounted insane who predicts that at an early date one may make his way from Boston to Chicago by atmospheric pressure in so brief a time that he may spend substantially the greater part of the day in the Queen City of the west and then return to his home in the Athens of America in season to have supper with his family. And besides, who doubts that ere long we are to skim the air in direct line, so that all and make it now, whereby ropes at corners and angles will be so cut that least could be kept at convenient dis- Hale offering his midnight prayer at "a straight line is the nearest distance between any two given points." > During the century now forever gone from us the world's intellectual, moral and religious growth has been onward and upward. Old tenets of faith we have willingly let slip from our grasp that we might seize upon newer and more essential truths. It is with no irreverence that one may declare that the God of this initial year of the twentieth century is not the God worshipped and feared in the beginning of the nineteenth century. And when we say this we take not one jota from the sublime faith and the zealous religious lives of the fathers and mothers whose names we hold in sacred memory. Their sainted lives in heaven is a fitting complement to their christian lives on earth. But this we do say, that intellectually we have been born anew. Whereas we were once blind we now see. Through the mind's keen intellectual perceptions we have learned of God. We have gone to the more generous and neverfailing sources of truth, and we have drank of its living waters. Yes, the fatherhood of God and the brotherhood of man will be joyfully proclaimed. through all the centuries to come.

> The twentieth century stands with its arms outstretched to receive every one of us to that grander faith and to that fuller knowledge that all things on earth below and in the heavens above are ours if we will but open our hearts and in the spirit of a grateful and appreciative love receive them.

THE GREAT REVIVAL MOVEMENT.

The great revival movement being inaugurated by all the clergymen in New York city is to be conducted on a most sensible plan. The pastors of the various religious denominations have agreed as one man to lay aside all creeds and what are termed doctrinal points in their work for the salvation of men and women. This is just as it should be, and it clearly demonstrates the fact that covered and newer and higher truths to when the clerical profession gets to be reached. The passing out of the work in earnest in the conversion of nineteenth century finds every civilized mankind then its members have little time and less disposition to discuss the horizon of each has become so extended so-called creeds which at best are but that the vision takes in a more compre- stumbling blocks to the great majority of intelligent men and women.

SUCH CRUEL INJUSTICE!

Such cruel injustice as has been done David L. Stain and Oliver Cromwell through their long imprisonment in the Maine penitentiary for a murder they never committed ought not to be possible, and, what is more, in such instance the state should not only reinstate the the wrongfully accused but it should be compelled to make restitution in a substantial way so far as this is possible.

We have never been able to understand why the state should not be liable for false imprisonment as well as the individual or the corporation. The Boston Herald has done signal service to the cause of justice in its persistent work in establishing the innocency of Stain and Cromwell.

WISELY SUGGESTED.

It has been wisely suggested by one of the prominent citizens of Arlington that there should during the skating séason be means or appliances kept within reach at Spy pond for the purpose of saving life from drowning. The suggestion is a most timely one. During the winter months there will be times when the venturesome boy and really it is unsafe.

THE WATCH MEETING.

The century night watch meeting held on Monday evening in the Unitarian church, a detailed report of which we give in another column, was peculiarly interesting and impressive to the large audience present. The coming together of all our Protestant clergymen gave emphasis to the occasion. And then the occasion itself, the coming in of a new century, was deeply felt by all meeting was a touching benediction to the old century and a cordial welcome to the new century.

"Mighty to create, But Impotent to mould or tend."

In the Messiah comes the power to sions at reasonable prices. For terms, mould us. The power that is a heart of sympathy as well. The power that is an ever-present angel with tears in his eyes and our storms sweeping in his face; with hands mightier than the lightning, yet stretched out to us in in ministries infinitely tender. As now we stand where two centuries come together it is befitting that we should be here in his house, and that we vividly feel also the coming together of the Father and his children, and fully realize that we were made for him, and that all our discipline is but a Father's task in the preparation of his own children for immortality and glory. May each of us in the hush of this midnight hour sensibly feel his presence and covet his abiding through the opening year:

"Speak to him thou for he hears thee, And spirit with spirit can meet: Closer is he than breathing, And nearer than hands or feet."

At the close of Dr. Watson's address, the choir sang Tennyson's "Crossing the bar," which was followed by three or four minutes of silent prayer just before the sound of the church bell and 20 strokes upon the fire alarm signal announced the advent of the twentieth

Promptly as the stroke of 12 was sounded on Monday night solemn high mass was commenced at St. Agnes The edifice was resplendent with innumerable incandescent lights. The alter was brightly lighted with nearly a hundred candles set in magnificent candle sticks, while the red incandescent lights in the arch over the alter added greatly to the beautiful scene. The Christmas decorations were still in place, and vases of flowers were placed at each side of the alter which was a scene of rare beauty. The mass was celebrated by the Rev. J. M. Mulcahy who was assisted by Rev. A. J. Fitzgerald as deacon, and Rev. A. S. Malone as subdeacon. The seating capacity of the church was taxed to its fullest, and many were standing around the chancel while the vestil ule was full of people who were unable to obtain admittance

The pastor preach- of so many feet shall not endanger the ed a short but impressive sermon on safety of the structure. An army surgeon of France discovered that the brain jar due to long marches in regular step is as trying on the human frame as such marching is on the structure of a bridge. To the regular repetition of a shock to bones and brain caused by this uniform and long continued marching are due the peculiar aches, pains and illness of the troops. On a one day march, he says, this shock is repeated 40,000 times, and often the strongest men who can walk the same distance without trouble when not in line succumb to the strain in two or three days. Therefore this surgeon proposed as a remedy the use of rubber heels. This device has been tried in the French infantry with great success.

But our army has a better plan than that. We simply break step with the command froute step." At this gait the men march in columns of fours at the rate of 3 to 31/2 miles an hour. They carry their pieces at will, keeping the muzzle elevated. They are not required to preserve silence nor to keep the step. And that's why the American army doesn't wear rubbers.-New York Press.

Rural England a Land of Song.

The love of song is strong as ever among the agricultural folk of England, and at the harvest home supper there is always plenty of melody of a sort, says a London newspaper. The old ballads and songs of the peasantry as found in broadsides and manuscripts are full of character. In the great majority of cases the authorship of these poems is unknown. One of the old favorites for recitation at country festivals used to be a dialogue between a husbandman and a serving man, and Mr. Bell in his collection of poems and ballads says he heard this on one occasion recited at Selborne by two countrymen, who gave it with considerable humor and dramatic effect. They delivered it in a kind of chant or recitative.

Curious Medical Case.

A curious case occurred in one of the Paris hospitals which excited much comment in medical circles. Some time ago a woman named Legros, 55 years of age, was found lying in the road in a state of insensibility and absolutely rigid. She was removed by the police to the hospital, where for three weeks she remained in the samstate. The doctors then decided that she was dead and had been so since she was found, the preservation of her body being due to the amount of alcohol she had imbibed.

Mrs. Farmer was ably assisted by her son and daughterin-law Mr. and Mrs. Walter B. Farmer. The guests were delightfully entertained with vocal selections by the Temple quartette of Boston, and with readings by Mr. Gilley a graduate of the Emer son School of Oratory Boston. The Temple quartette is one that the more it is heard the better it seems. While they interpret many composers in a wonderfully clear and intelligent manner, in some their singing stands pre eminent as far as perfect blending and hernony of voice is concerned. Their singing was a rare treat to the music loving guests, Mr. Gilley gave several readings, both humorous and pathetic, in a finished and captivating manner. In honor of the occasion and as a compliment to Post 36 the American flag was a conspicious feature of the decorations. A large flag was draped very effectively over the arch in the recept ion hall, while smaller flags were used as a border to the table cloth. A beautiful bouquet of cut flowers formed a centre piece for the table on each side of which small rifles were stacked in true military fashion while streamers of red white and blue were suspended from the chandelier and draped off to ward the four corners of the table. The table thus decorated and laden with appetizing viands, presented a handsome and attractive appearance. During the evening some delicious punch was served. The supper was furnished by Caterer N. Nor can we omit to say a complimentary word of the handsome and elaborate decorations artistically effected by the members of Rev. Immediately after supper there was an entertainment which was participated in by Mr. John Wright of Curve street, and one of his juvenile pupils. The experience of Mr. Frizelle in how he did not earn his dollar was most laughable as was also the various ways in which others earned theirs, many of them telling their experience in very creditable verse. There was a feeling of happiness and good cheer among the party that was most infect ious and the number of bright silver dollars studding the blackboard was a sure indication of its being a financial Veritas Lodge 45, U. > Night," written, managed, and directed by Annette Frizelle was admirably ren-Sunday school in Town hall, Lexington, on last Friday evening, the 4th inst. The stage was thickly planted with pine trees, the trunks of which were fully inches in diameter and 12 or 14 ft.high, the green branches being covered with artificial snow, which was very suggestive of the real article, and when the school girls made their appearance comfortably wrapped in their winter furs and carrying their skates in all the natural positions that a bevy of happy school girls assume in real life, you would have to pinch youself to believe that you were not in the open woods so realistic and true to nature was the scene presented to the view. The half and gallery was comfortably filled with people but we do not hesitate to declare that if this play was repeated, that the hall would not be large enough to contain the audience, so great was the interest manifested by all those present. Each and every one of the children acted their several parts in such a highly creditable manner that we feel very timid in trying to discriminate, and it space permitted we would make personal mention of all the players, but under the conditions we will have to confine ourselves to a few of the leading characters. Alice Duffy as Peggy and Margaret Kane as Trixy, were irressistable in their roles of white and colored waits respectively, and we doubt if their equals can be found in any amateur theatrical company in exhistence, ages and experience taken into consideration. Masters John Fitzmaurice and Parrie O'Brien as Bill and. Joe were as tough looking a pair of newsboys as could be found on Newspaper row, and their singing was a complete surprise to the audience who showed their appreciation in a very enthusiastic manner. Marie Neville as Sister Irene, personated a nun to perfection, and Nora Leary as mother Marty deserved the applause bestowed on her by the audience whose feelings were wrought up to an intense degree by the pathetic death scene. The singing and costumes of the school girls, angels and fairies, deserved all the applause they received. In an interview with Miss Frizelle we were fully assured that she was the least surprised of anybody and was profuse in her praise of the children, and she endeavored to convey the impression that the success of the play entirely due to the talents of the-children. Mr. James Shelvey and John I. Hughes came in for their share of her commendation. The children were drilled by Miss Annette Frizelle a contralto soloist whose vocal and musica! talents are widely known and who we are proud to state is a resident of East Lexington. Mrs. Jame. Shelvey was accompanist, and won high praise from Miss Frizelle for the efficient help rend-

three young men of congenial tastes, and they owed their name to the fact that they spent all their leisune together. They belonged to the same social set, to the same societies, and their friendship was so generally recognized that when a committee of three was needed at any gathering they were invariably appointed in a bunch. So it was only natural that they should be sitting up together to see the New Year in. But, though they were entirely congenial it would have been evident to any keen observer that on this occasion they had something on their minds. Moreover, it would not have been hard to determine what that something was. They had each made good resolutions for the coming year, and, though they were the best of friends, they did not exchange confidences. for every man hates to

talk of his good resolutions, because they are so hard to keep, and the breaking of them gives rise to so much chaffing. Still, a careful observer could have made a shrewd guess at the nature of their reso lutions had he been admitted to the charmed circle. Charlie Hague, in whose room they were assembled, was coddling the cigar he was smoking with such lov ing care and trying to get the last possible whiff out of it that it was not hard to decide that for a few weeks at least his consumption of tobacco would be materially decreased. Tom Fielding was speak ing with such strained precision that an attempt to give up slang was hinted at, and Jack Haslam was so morose that it was quite evident he had promised to make some great sacrifice for his fiancee. But, though they would not talk about their individual cases, the subject of New

Year resolutions was so present to their minds that it naturally colored their conversation.

"Say!" exclaimed Haslam, rousing him-lf. "We had some New Year resolutions down at our place today. "Good ones, were they?" asked Field-

When the rush of business was over, we went into his private room in single file and saluted in military form, so as to show that what we were doing was half a joke and he couldn't get mad about it.

"THERE!" HE SAID. "I HAVE BROKEN THE WRASTLER'S BACK. "'Well, what have you got on your

villainous twinkle came into his eyesto refrain from raising any salaries. When the general laugh subsided, Hague remarked:

'Though I have heard of many New Year resolutions, I have seldom heard of one being kept, but one occurs to me You know I was born and brought up in a Scotch settlement, and you also know that the Scotch have many peculiar customs. Though they no longer have chiefs in this country, they have wise men who are looked up to by ail the community and asked for advice in times of trouble. To one of these a poor woman went in great distress. Her husband was a famous wrestler, the champion of the whole settlement, but he had a failing for strong drink, and when the New Year came round, when Scotch people are in the habit of making calls and drinking to one another's health, she feared he might start out on one of his terrible sprees. She took her troubles to the wise man, and he said, 'Leave the matter to me.

"A few days later McNab, the wrestler, received a message stating that a great wrestler had arrived from Scotland who had overthrown every one with whom he had ever contended and that McNab could find him at the house of the wise man. McNab accepted the challenge at once and went to seek his opponent.

"'Whaur is the wrastler?' he inquired. 'Let me get hold of him, and I'll break his back. "The wise man smiled and set a bottle

of Scotch whisky on the table.
"'There,' he said, 'is the only wrestler know of that can overthrow you, and, as I was afraid you might meet him while going around at the New Year, I

thought I would warn you. "At first McNab was inclined to be angry; but, realizing the truth of the rebuke, he picked up the bottle and with one powerful twist broke it in two.

"'There!' he said. 'I have broken the wrastler's back, and no one can say that he can ever overthrow me again.' that New Year's resolution was kept."

"I once knew several resolutions that were kept." said Fielding, "and the consequences were sad. I once had several chums who were ambitious, but indolent, and it was their delight to get together and talk about the great things they hoped to do. One was an embryo author who mapped out books no man could write, another a scientist who had dreams beyond the conceptions of Tesla and Edison, and yet another a growing statesman whose schemes would have dazzled Hanna. It used to be delightful to listen to them talk, but one New Year's eve they foolishly resolved to try to materialize their great ideas.'

"Where are they now?" asked Has

"The statesman has disappeared from sight, the scientist is a lineman for a telephone company, and the would be eminent author is a police court reporter, and all of them are unhappy because they have discovered that they are failures, like most other men, whereas if they had never tried they would still be convinced of their native ability and be happy. As you can see, New Year's res-

olutions are sometimes dangerous." Just then the chimes began to ring out the old year and to ring in the new. The Inseparables opened their windows for the New Year to enter and shook hands on the resolution they had made, although none of them knew the resolutions made by the others.

THE DRUMMER

The briskest drummer on the road Has come to town today. Upon his back he bears a load. Come, look at his display.

Here, maiden, is an honest heart-Tush! No coquettish wiles! It's pierced by Cupid's choicest dart. The price is-winning smiles.

Here, youth, are honor, glory, fame And all that you desire, The price, "to every one the same"-Toil and ambition's fire.

Here, statesman, is the prize you crave, A chance to rule and guide, The price is-toiling like a slave And trampling on your pride.

That's bought with tears and pain; Here, painter, bought by weary days, The honor you would gain. Here's happiness, to some a gift,

Here, poet, is your wreath of bays,

To others past all price; Here clouds of grief that show no rift, Then scatter in a trice. But, though both griefs and joys are dear,

There's much he gives away,

And yet for all you get I fear You'll sadly overpay. Most whimsical of "gripsack knights," He tumbles down his wares

And laughs to see his choice delights O'erwhelmed by foolish cares. But who can blame this youth sublime?

No rivalry he fears! He travels for the house of Time, The youngest of its years.

So welcome him with pomp and pride! Come, make a joyous din! Throw both your doors and windows wide And let the New Year in! P. MCARTHUB.

A New Year's Call.
